Report generated October 29, 2026 · Ridgecrest Car Finder

Out-the-door price	Monthly cost to own	Reliability
$28,042	**$892**	**Good**
Set a budget in the Cost Calculator tab to compare.	loan + insurance + fuel + repairs + registration	4/5 · 18 recalls · 771 NHTSA complaints

Budget — buying it

Vehicle price	$25,172.00
Sales tax (9.25%)	$2,328.41
Dealer doc + filing fees	$125.00
Vehicle license fee (0.65% of price)	$163.62
Registration + CHP fee	$108.00
Transportation improvement fee	$130.00
Title transfer	$15.00
Total out-the-door	$28,042.03
+ Pre-purchase inspection (you pay the shop)	$150.00

California taxes the full price — a trade-in does not reduce sales tax. DMV fees are estimates; the CA DMV fee calculator gives exact amounts.

Budget — paying for it

Down payment	$5,000.00
Amount financed	$23,042.03
Monthly loan payment (60 mo @ 7.5% APR)	$461.71
Total interest over the loan	$4,660.87
Cash needed up front (down payment + inspection)	$5,150.00

Budget — owning it each month

Loan payment	$461.71
Insurance (estimate, full)	$216.00
Fuel (1,000 mi/mo @ 42 MPG, $4.75/gal)	$113.10
Maintenance & repair reserve	$75.00
Registration renewal (÷12)	$26.13
Total per month	$891.95

Running costs without the loan: **$430/mo**. Estimated first-year cost of ownership: **$34,949** (out-the-door + inspection + 12 months of running costs + loan interest).

The repair reserve is set from the reliability rating and mileage: money to set aside, not a forecast.

Insurance

Coverage	Typical Ridgecrest range	Estimate used
Liability only (CA minimum 30/60/15)	$78–$179/mo	$112/mo
Full coverage (liability + collision + comprehensive)	$151–$389/mo	$216/mo

The budget above uses the **full coverage** estimate ($216/mo). Get real quotes and enter one in the app to replace it.

• Vehicle class: electric (Tesla: costly body and battery repairs). Estimates assume an adult driver with a clean record; age, record, credit, and coverage limits change the price a lot.

• Ridgecrest is one of the cheapest places in California to insure a car (about $107–110/mo average).

• A lender will require full coverage. On an older, cheap car paid in cash, liability-only can make sense — but you'd pay for your own repairs after an at-fault accident.

• California's minimum (30/60/15) is low; $100k/$300k/$100k liability is commonly recommended.

• Ask about military/government discounts (NAWS China Lake), bundling, and low-mileage discounts.

Reliability

Rating: Good (4/5)

Newer, single-owner, accident-free, and still under battery/drive-unit warranty - the lowest-risk Model 3 under ~$26k here. Long Range AWD uses a little more energy than RWD.

NHTSA data for this model year: 18 recalls · 771 owner complaints (56 involving a crash). Most complaints: Forward Collision Avoidance (534), Vehicle Speed Control (171), Service Brakes (168), Unknown Or Other (94), Electrical System (60), Lane Departure (44).

Known issues for this model

• Front control arm / suspension clunks

• Door handles, window regulators, touchscreen faults

• Fast tire wear

• Pricey collision repairs

Check on this car before buying

• Battery health: in the car, check the range at 100% charge (Energy app or ask the dealer for a battery report)

• Confirm the remaining battery warranty date/mileage with Tesla (VIN lookup)

• Run VIN for open recalls; check for Tesla software updates

• Tires: tread depth and matching set

• Check the 12V/low-voltage battery and that the charge port opens and charges

• Ask if Supercharging is pay-per-use (it will be) and whether a mobile/wall charger comes with it

Notes

$25,172 (about $27,382 out the door), 72,815 mi. AutoCheck: clean title, accident-free, SINGLE owner, personal use. 10% below market - AutosToday's best-rated Model 3 deal nearby (8.6/10).

Long Range = ~300+ miles of range and battery/drive-unit warranty to 8 years/120,000 miles, so roughly 47,000 miles (~3 years of DoorDash) of coverage left.

No photos online yet (dealer placeholder only).

ELECTRIC: the MPG shown is gas-equivalent - Supercharger charging (~$0.48/kWh) costs about what a 42-MPG car would at $6/gal. Charging at home (~$0.33/kWh) would be cheaper, like a ~62-MPG car. Ridgecrest has a Tesla Supercharger.

Insurance estimate uses an EV class (about 1.6x a regular sedan) because Tesla body and battery repairs are expensive - get a real quote.

No oil changes; the main running cost is tires (Teslas wear them fast, ~$800-1,200 a set).

Vetting checklist (0/12 done)

- [ ] Checked KBB/Edmunds fair price
- [ ] Recalls checked / completed
- [ ] Clean title in seller's name
- [ ] Test drive incl. highway & hills
- [ ] No overheating; coolant clean
- [ ] Pre-purchase inspection
- [ ] VIN decoded & matches listing
- [ ] History report (Carfax/AutoCheck/NMVTIS)
- [ ] Valid smog cert (< 90 days)
- [ ] A/C cold after 15+ min
- [ ] Tires OK (tread, dry-rot, DOT date)
- [ ] Written out-the-door price

All costs and insurance figures are estimates for planning, not quotes. Confirm fees with the CA DMV, rates with insurers, and the car's condition with an independent pre-purchase inspection.
