Out-the-door price	Monthly cost to own	Reliability
$22,288	**$821**	**Average**
Set a budget in the Cost Calculator tab to compare.	loan + insurance + fuel + repairs + registration	3/5 · 21 recalls · 452 NHTSA complaints

Budget — buying it

Vehicle price	$19,995.00
Sales tax (9.25%)	$1,849.54
Dealer doc + filing fees	$125.00
Vehicle license fee (0.65% of price)	$129.97
Registration + CHP fee	$108.00
Transportation improvement fee	$65.00
Title transfer	$15.00
Total out-the-door	$22,287.50
+ Pre-purchase inspection (you pay the shop)	$150.00

California taxes the full price — a trade-in does not reduce sales tax. DMV fees are estimates; the CA DMV fee calculator gives exact amounts.

Budget — paying for it

Down payment	$5,000.00
Amount financed	$17,287.50
Monthly loan payment (60 mo @ 7.5% APR)	$346.41
Total interest over the loan	$3,496.86
Cash needed up front (down payment + inspection)	$5,150.00

Budget — owning it each month

Loan payment	$346.41
Insurance (estimate, full)	$216.00
Fuel (1,000 mi/mo @ 45 MPG, $4.75/gal)	$105.56
Maintenance & repair reserve	$130.00
Registration renewal (÷12)	$23.33
Total per month	$821.29

Running costs without the loan: **$475/mo**. Estimated first-year cost of ownership: **$29,332** (out-the-door + inspection + 12 months of running costs + loan interest).

The repair reserve is set from the reliability rating and mileage: money to set aside, not a forecast.

Insurance

Coverage	Typical Ridgecrest range	Estimate used
Liability only (CA minimum 30/60/15)	$78–$179/mo	$112/mo
Full coverage (liability + collision + comprehensive)	$151–$389/mo	$216/mo

The budget above uses the **full coverage** estimate ($216/mo). Get real quotes and enter one in the app to replace it.

• Vehicle class: electric (Tesla: costly body and battery repairs). Estimates assume an adult driver with a clean record; age, record, credit, and coverage limits change the price a lot.

• Ridgecrest is one of the cheapest places in California to insure a car (about $107–110/mo average).

• A lender will require full coverage. On an older, cheap car paid in cash, liability-only can make sense — but you'd pay for your own repairs after an at-fault accident.

• California's minimum (30/60/15) is low; $100k/$300k/$100k liability is commonly recommended.

• Ask about military/government discounts (NAWS China Lake), bundling, and low-mileage discounts.

Reliability

Rating: Average (3/5)

Model 3 drivetrains are generally durable and there's no engine or transmission to fail, but this one is past its battery/drive-unit warranty at 110k, and Teslas have more build-quality and electronics issues than Toyota/Honda.

NHTSA data for this model year: 21 recalls · 452 owner complaints (54 involving a crash). Most complaints: Forward Collision Avoidance (157), Unknown Or Other (81), Vehicle Speed Control (69), Service Brakes (48), Steering (47), Suspension (46).

Known issues for this model

• Out of battery & drive-unit warranty (100k miles)

• Front control arm / suspension clunks

• Door handles, window regulators, touchscreen (MCU) faults

• Fast tire wear

• Pricey collision repairs

Check on this car before buying

• Battery health: in the car, check the range at 100% charge (Energy app or ask the dealer for a battery report)

• Confirm the remaining battery warranty date/mileage with Tesla (VIN lookup)

• Run VIN for open recalls; check for Tesla software updates

• Tires: tread depth and matching set

• Check the 12V/low-voltage battery and that the charge port opens and charges

• Ask if Supercharging is pay-per-use (it will be) and whether a mobile/wall charger comes with it

Notes

$19,995 (about $21,830 out the door), 109,900 mi. AutoCheck: clean title, accident-free, multiple owners, personal use. 7% below market.

CHEAPEST clean Model 3 nearby. BUT it is past the 100,000-mile battery & drive-unit warranty (8 yr/100k on Standard Range Plus), so a battery or drive-unit failure would be on you. Get a battery health check before buying.

Same dealer also has a 2018 Long Range ($18,995, 116k, ex-fleet) and a 2020 Performance ($20,995, 116k, 1 owner).

ELECTRIC: the MPG shown is gas-equivalent - Supercharger charging (~$0.48/kWh) costs about what a 45-MPG car would at $6/gal. Charging at home (~$0.33/kWh) would be cheaper, like a ~65-MPG car. Ridgecrest has a Tesla Supercharger.

Insurance estimate uses an EV class (about 1.6x a regular sedan) because Tesla body and battery repairs are expensive - get a real quote.

No oil changes; the main running cost is tires (Teslas wear them fast, ~$800-1,200 a set).

Vetting checklist (0/12 done)

- [ ] Checked KBB/Edmunds fair price
- [ ] Recalls checked / completed
- [ ] Clean title in seller's name
- [ ] Test drive incl. highway & hills
- [ ] No overheating; coolant clean
- [ ] Pre-purchase inspection
- [ ] VIN decoded & matches listing
- [ ] History report (Carfax/AutoCheck/NMVTIS)
- [ ] Valid smog cert (< 90 days)
- [ ] A/C cold after 15+ min
- [ ] Tires OK (tread, dry-rot, DOT date)
- [ ] Written out-the-door price

All costs and insurance figures are estimates for planning, not quotes. Confirm fees with the CA DMV, rates with insurers, and the car's condition with an independent pre-purchase inspection.
